How you respond to an active shooter will be dictated by the certain circumstances of the encounter. If you find yourself involved in an active shooter situation, try to remain calm and use these guidelines to help you plan a strategy for survival.

Have a Plan in place

This starts NOW !!

# Run !!!

If there is an accessible escape path attempt to evacuate the premises:

- ◉ Follow the instructions of any police
- ◉ Do not attempt to move wounded (discuss)
- ◉ Call 911 when you are safe

# Hide !!!!

If evacuation is not possible, find a place to hide where the shooter is less likely to find you

- The hiding place should be out of the shooter's view
  - Provide protection if shots are fired in your direction
  - Not trap or restrict your options for movement
- Lock the door to the room
- Barricade the door with heavy furniture

# Fight !!!

---

**As a last resort and only when your life is in imminent danger should you take any action against the shooter!**

- ▣ Acting as aggressively as possible against him/her
- ▣ Throwing items and improvising weapons
- ▣ Yelling
- ▣ Committing to your actions
- ▣ SWARMING (when feasible)

# Law Enforcement Response

---

- ▣ Law enforcement's purpose is to stop the loss of life.
- ▣ Deputies will proceed directly to the area in which the last shots were heard
- ▣ Deputies may arrive in various types of uniforms from patrol to tactical but will have identification on them
- ▣ Deputies may be armed with pistols, rifles or shotguns
- ▣ Deputies may shout commands and even push you to the ground

# Remember

- The first deputies on scene will not stop to help injured persons. Don't ask them to.
- Additional rescue teams will come at a later time.
- Once you are in a safe place outside you will be held there. Do not leave until told to do so by Police. You are a vital witness any help you need will be provided to you.
