

A BETTER MARYLAND AND SMART GROWTH WHERE ARE WE GOING?

A BETTER MARYLAND

THE CORE

Environment

Economic
Development

HOUSING

A new approach to Smart Growth is needed to address the demand for housing that is affordable for various income levels

COLLABORATION

Smart Growth must include regional strategies encouraging collaboration within the state and with neighboring states

REGIONALISM

The next generation of Smart Growth should be applied regionally with nuance and distinction best suited to each type of community

INFRASTRUCTURE

Smart Growth must embrace the development of and support for the next generation of infrastructure and technology
